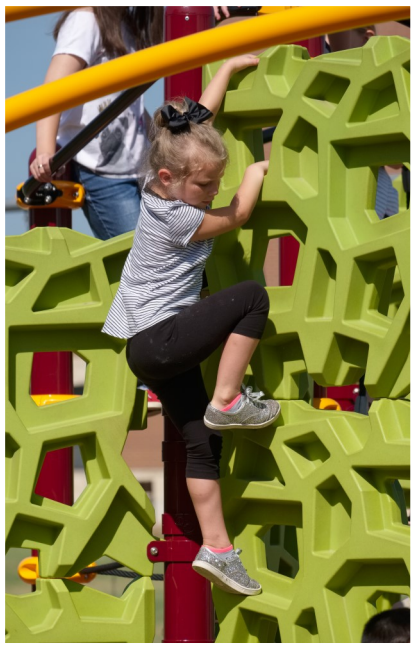
SCHOOLS

Whirlix
Always in Motion



School playgrounds are in a unique position to meet kids where they are, helping them become smarter, heathier and stronger through play. Studies show that outdoor physical activity not only benefits a child's health but improves classroom performance, increases cognitive development and hones social skills.

School playground planning can seem overwhelming but not to worry, we have a step-by-step guide that breaks down the process to make it easy and fun. One size doesn't fit all and we'll help you design a playground that is ideal for your school and meets your unique needs. We will help you:

- Envision and define school playground objectives
- Analyze characteristics of your site to maximize space and surrounding elements
- Recommend age-appropriate products and shade systems
- Meet safety regulations and guidelines to keep kids safe while they play
- Build your school playground on a budget and raise funding
- Install and maintain your school playground

Here is what our customers are saying about us:

~ **Anne B., Paris, TX**

Episcopal Day School is thrilled with our Dinosaur and Motorcycle Tuffriders! They provided superior customer service and went above and beyond to have our new playground equipment delivered quickly. We look forward to working with Whirlix again!

~ **Quincy C., TX**

By far one of the best coordinated and unique installations we have done.

~ **Ray M., TX**

My intention is to use you all for just about every-thing we need from playground to picnic tables and trash cans. I've been waiting for a company like y'all to come along for my entire career. Looking forward to many projects with y'all over the next 5-6 years.

~ **Emily W., Plano, TX**

Stoney Hollow is pleased to have worked with Whirlix. The final product and their customer service has exceeded expectations! They took the time to really listen and understand what we wanted and needed: to fit as many unique play pieces as possible in a limited space, that were inclusive to all children aged 2-12, within a conservative budget.
