

# 2024 NEW PRODUCTS

Smart Play® Volo™ offers boundless fun in a compact design, optionally with integrated shade. Its core features a central ring connected by LSI Flexx™, a steel-reinforced cable netting for immersive play. This innovative material caters to diverse abilities, offering play sensations from relaxation to climbing.

Children chart their own course in Volo™, with intentional elements forming a continuous play loop. Volo™ adapts to various paces, encouraging kids to shape their play style uniquely.

Volo™ distinguishes itself as a play space structure, seamlessly blending numerous layers of enjoyment. While also encouraging children to explore a realm of possibilities, nurturing both creativity and physical activity. The addition of integrated shade elevates the play experience, ensuring kids can comfortably revel in their play time.

## LED Jumping Jets from Aquatix®

Create a dynamic sensory water experience with LED Jumping Jets from Aquatix®. Whether incorporated into a larger splash pad area or used as a standalone display in a small area, LED Jumping Jets offer beauty and interactive fun that everyone will love. We are dedicated to elevating your space with water that dances, jumps and pops in vivid color. Change the patterns, timing and light display with ease. Choose the system that suits your needs, from preset water sequencing with white lights to a fully programmable water and light display.

## Uplevelled Net Play with LSI Flexx™

LSI Flexx™ is a game-changing steel-reinforced cable netting material that offers kids with a range of abilities a ton of play sensations from relaxing to bouncing to climbing. Its cables are made of tightly woven, polyester-wrapped galvanized steel, and boast top-quality features like abrasion resistance, color stability, the utmost durability and vandal resistance. The smooth, low-profile connection nodes are comfortable to crawl across and an ideal size for kiddos to grasp while climbing.

Our latest palette, CL, is inspired by nature: specifically, the breezy, whimsical colors of the sky. It is an ideal complement to our new playstructure, Volo, which is designed to reflect flight and the light qualities of the air.
