

2025 NEW PRODUCTS

Smart Play® Volo Aire™ reaches new heights with an exhilarating three-story tower that's fully accessible to the top via a winding pathway crafted from our innovative LSI Flexx™ steel-reinforced net. At the core, a vertical climbing challenge adds an extra layer of excitement. But Volo Aire isn't just about the destination—it's about the journey. Designed to captivate kids at every level, it features engaging play elements that ensure non-stop fun, even with a crowd.

The tower's striking design includes perforated panels at the mid-level and vertical slats at the top, offering breathtaking yet secure views for climbers and excellent sightlines for onlookers below. Combining stunning aesthetics with dynamic play opportunities, Volo Aire™ promises to take kids up, up, and away into a world of adventure!

The Flexx™ Swing from Landscape Structures®

The Flexx™ Swing may have a relaxed look, but it delivers a soaring thrill like no other! This innovative, fully inclusive ride lets kids recline as they swing, offering a completely unique sensation compared to traditional swings. With wide open sides for easy transfers and a spacious design that accommodates multiple users, the fun only multiplies. Crafted with our exclusive LSI Flexx™ steel-reinforced net, it provides both comfort and excitement for an unforgettable adventure.
