

Whirlix Design Inc. – Corporate Fact Sheet

Company Overview

Since 2017, Whirlix Design is the leading provider of playground and outdoor recreation solutions serving North and Central Texas. Specializing in a full-service, design-build approach, Whirlix partners with municipalities, schools, and community organizations to create high-impact, inclusive environments that bring people together and promote active lifestyles.

Core Services

Whirlix Design offers a comprehensive range of services including consultation and planning, custom design and engineering, project management and execution, and post-project support and maintenance. This full-service approach ensures a seamless experience from concept through completion.

Key Markets Served

Whirlix Design serves municipalities and parks departments, K–12 schools, landscape architects and design firms, developers and homeowner associations, as well as churches and daycare organizations. These partnerships allow Whirlix to create spaces that meet a wide range of community needs.

Strategic Partnerships

Whirlix partners with industry-leading manufacturers including Landscape Structures®, SkyWays® Shade Systems, Aquatix® by Landscape Structures, and Poligon® Structures. These partnerships enable the delivery of high-quality playground equipment, shade structures, splash pad systems, and architectural outdoor elements.

Differentiators

Whirlix Design stands apart through its design-build expertise, inclusive design philosophy, turnkey execution model, and strong industry relationships. The company's ability to manage projects from initial concept through final installation ensures efficiency, quality, and a cohesive vision throughout each project.

Notable Projects

Whirlix Design has delivered impactful, community-driven projects across North Texas, including **Galaxy Park** in Fort Worth, a space-themed outdoor learning environment that extends the museum experience through inclusive play, and **Frank Kent's Dream Park**, a premier destination designed for children of all abilities.

Additional highlights include the **Katherine Rose Memorial Park** playground in Mansfield, a thoughtfully designed, multi-generational space, and **Old Celina Park** in Celina, TX, a large-scale park that enhances community engagement through dynamic play and open space integration.

Awards & Recognition

Whirlix Design was named Landscape Structures' 2025 Rep of the Year, recognizing excellence in performance, service, and community impact.
